

Anti-Skateboarding Guards

- Protect Railings, Benches, Retaining Walls, Fountains, and Planters
- Proven to be an Effective Deterrent Against Skateboarders

Protect Your Property from Skateboard Damage

Skateboard guards are the most effective way to prevent property damage from grinding, waxing, and loitering. Our aluminum guards feature an anodized finish that looks great with any architecture style. They are perfect for protecting surface edges such as railings, benches, retaining walls, fountains, planters and pony walls. Each guard is secured using security screws to prevent unauthorized tampering or removal.
