

Mailbox Repairs, Refinishing, Replacement and Relocation

Combining our trades of metal fabrication, carpentry, and locksmithing ... we will take care of all your mailbox needs, from rekeying mailbox locks, to complete replacement & relocation.

Taking Care of all Your Mailbox Maintenance and Repair Needs

Call us for mailbox repairs, rekeying, upgrades and new installations. Our excellent relationship with Canada Post allows us to coordinate with them to quickly get your mail back in service.

Repairs and Rekeying

Mailboxes are constantly prone to break-ins, weathering, wear-related breakages, and tenant changes. Common mailbox repairs we can do for you include ...

- Repairing mailbox locks and doors
- Professional numbering / labeling
- Mapping out mailboxes to units
- Rekeying locks for new tenants
- Graffiti cleanup and removal
- Security upgrades

Replacement and Relocation

Often, it's the little details that make a property look fresh and inviting.

With our team of experienced trades professionals, Fortress One Security provides more than just simple mailbox replacement. We integrate your mailbox installation into your existing decor.

This is the advantage you get with a full service security and maintenance group of companies at your disposal.

We service every type of commercial interior and exterior mailbox including pedestal mounted, wall mounted, and recessed boxes. Mailboxes are available in horizontal and vertical orientations, depending on the installation location.

To relocate your mailboxes, whether for aesthetic or security reasons, you will need permission from Canada Post. Our team will relocate your boxes and repair wall damage at the previous location.
