## Pump Truck Service

- Catch Basin Cleaning
- Clogged Drain Hydro Flushing
- Broken Water Main Repairs
- Colour Drain Video Camera
- Pipe, Line, and Leak Locating

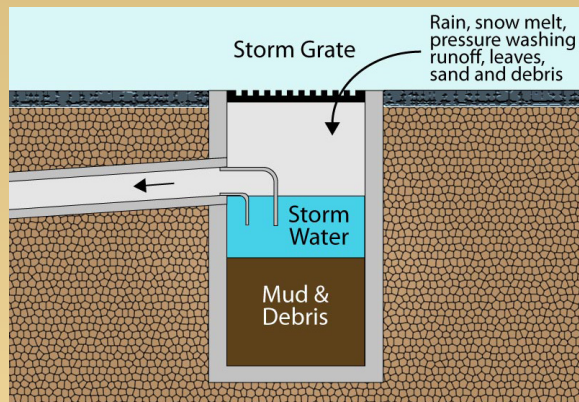

325 ft self leveling drain camera with colour video, audio, and USB reporting.

200 ft x 1 1/4" sectional auger with root cutting and drain clearing heads.

3000 psi / 20 gal per minute hydro-jetter with 450 ft of line for root cutting & flushing.

### Annual Catch Basin Cleaning

Annual catch basin cleaning is a critical part of property maintenance each fall before the rain and snow start.

All your catch basins are connected by drain pipes. If the mud and debris that accumulates is not cleaned out regularly, it will build up and run out the outflow pipe, causing drainage to slow and then stop.

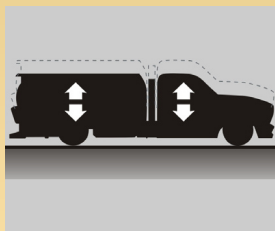

To avoid costly flooding of your property or hydro-flushing service to remove blockages from your drain lines, have your catch basins cleaned annually.

60 ft of 3" vacuum hose and 100 ft of 2" vacuum hose and 600 gallon capacity tank.

300 gal fresh water tank on board for hydro-flushing and power washdown.

Air ride suspension lowers truck down to 76" allowing entry into underground garages.
