Proudly Serving Greater Vancouver Property Managers

For all your commercial and strata sign needs

About Signs BC Illuminated

Signs BC Illuminated has been serving customers throughout North America since 1994. Signs BC was developed by Nikls "One Call" Property Services to provide sign services that cater specifically to Property Managers and commercial businesses.

With over 50 years of combined sign making experience, our staff are able to provide you with professional and knowledgeable service, products, and installations.

Our wide range of products and services is the reason we are BC's full service sign solution. And as new technologies and sign construction techniques are developed, we are constantly upgrading our equipment to serve and provide you with quality signage products and quick completion times.

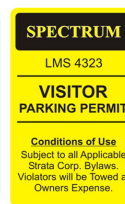

We have the capability to design and develop new products that will surpass your expectations, from standard to custom projects, and always with cost effective pricing in mind.

And we install every sign we make - from start to finish, all your commercial and strata property signage needs are taken care of.

Banners

From traditional hanging banners to banner stands, and portable banners. Perfect for all your temporary signage and corporate events.

Parking Passes

Our parking passes can hang from a vehicle's mirror or be placed on the dash. They can also be numbered or serialized, and can be updated annually with stickers affixed to the passes.

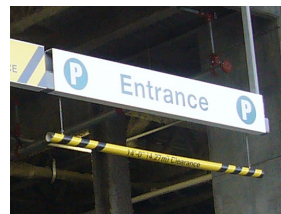

Awnings

Call us for awning repairs that include patching holes or repairing frame damage. We also do complete awning replacement, re-skinning, and installation of bird netting or awning graphics.

Braille Signs

Signs BC is one of the few licensed braille sign makers in British Columbia. We specialize in high contrast, braille signs for common area requirements such as for washrooms and elevators.

Maximum Clearance Bars

Made of 4" or 6" heavy duty ABS plastic pipe or powder coated aluminum channel. They are black and yellow for maximum visibility with the clearance height noted. We also make max clearance signs.

Lighted Sign Service & Repair

From simple lamp and ballast replacement to neon repair, graphics changes, and complete electrical service or sign box repair.

More Signs ...

And more than just signs ..

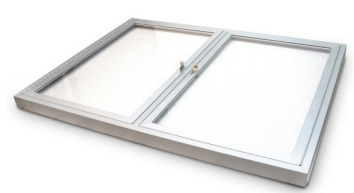

Door and Desk Plates

Your door signs are one of the first things your clients see. They have to look great. A variety of materials and processes are available to match the existing signs in your building or to come up with new and professional looking designs.

Dimensional Signs & Lettering

Dimensional or 3D signs and letters are very popular. The materials your sign can be constructed with are almost endless, and by mixing and matching the design elements to construct a 3 dimensional model of your name and logo, you get a sign that stands out and looks amazing.

Lobby Directories

Directories, also known as wayfinding signs, are designed to help people find their way. Your goal is signage that fits your building, both functionally and aesthetically. We will help you with innovative designs and a large variety of materials, and we also value your input.

Notice Boards & Cabinets

Notice boards and cabinets are perfect for elevators, entrances, mail rooms, and other common areas where displaying information for either tenants or patrons is important. We have a variety of styles & sizes that include snap frames, locking cabinets and illuminated cabinets. The aluminum frames are also available in black, gold & bronze finishes.

Parking & Traffic Signs

All the standard traffic signs you need are available with installation. And if you require any customized signage for your parking lot or garage such as parking regulations signs, towing signs, or reserved parking signs for tenants, we are ready to build whatever you need. And we use Alupanel to stop aluminum scavengers from stealing your signs.

Line Painting

Parking lot appearance is the first impression that customers receive when visiting your property. At Signs BC, we make sure it's a positive impression. We can provide you with everything including line repainting, standard and custom stencils, and curb painting. We can also create greater traffic directing features such as arrows and stop lines.

BC's Full Service Sign Solution
